

Qiang Chen

HKUST PhD Student | qiangchen.sh@gmail.com

Research Interests

I have recently been following **multi-modal large language models and agents**, especially their applications in the healthcare field, as I aim to develop AI systems that are practical, explainable, robust, and trustworthy. Certainly, I also possess a basic understanding of the following areas:

- | | |
|---------------------------|------------------------|
| a) GNN | b) Flow Matching |
| c) Reinforcement Learning | d) Convex Optimization |

Publications in CSU-VLA Lab, 2024.11-2025.12

- **Stable Fair Graph Representation Learning with Lipschitz Constraint** (ICML'25, 2024.11-2025.1)
[Qiang Chen*](#), Zhongze Wu*, Xiu Su, Xi Lin, Zhe Qu, Shan You, Shuo Yang, Chang Xu
- **Graph Unlearning Meets Influence-aware Negative Preference Optimization** (ACM MM'25, 2025.1-2025.3)
[Qiang Chen*](#), Zhongze Wu*, Ang He, Xi Lin, Shuo Jiang, Shan You, Chang Xu, Yi Chen, Xiu Su
- **ROVER: Robust Generative Continual Identity Unlearning against Relearning Attacks** (AAAI'26, 2025.5-2025.8)
Tairan Huang*, [Qiang Chen*](#), Beibei Hu, Yunlong Zhao, Hongyan Xu, Zhiyuan Chen, Yi Chen, Xiu Su
- **Towards Robust Graph Unlearning via Gradient Consistency Control** (Under Review, 2025.3-2025.5)
[Qiang Chen](#), Xiu Su, Zhongze Wu, Hongyan Xu, Xiaobo Xia, Shan You, Chang Xu, Yi Chen
- **LEGATO: Good Identity Unlearning Is Continuous** (Under Review, 2025.5-2025.8)
[Qiang Chen*](#), Chun-Wun Cheng*, Xiu Su, Hongyan Xu, Xi Lin, Shan You, Angelica I Aviles-Rivero, Yi Chen
- IELTS (Score: 6.5(6), 2025.9-2025.12)
The path forward has been non-linear.

The undergraduate I have worked with

- **We welcome you to join our lab and work with me !**
- **BiRisk-GRPO: Robust and Stable Alignment of Flow Matching Models via Bilateral Risk Filtering** (2025.9-2025.11)
[Siyu Shang*](#), Qiang Chen, Xiu Su
- **Deterministic Guidance Catastrophe: A Geometric Framework for Safe Inference in Flow Matching** (2025.11-2026.2)
[Siyu Shang*](#), Qiang Chen, Xiu Su
